LAWN & GARDEN

Full Line Brochure

GENUINE HONDA

When it comes to maintaining a beautiful lawn and garden, nothing makes the cut like genuine Honda lawn and garden equipment. Behind every exclusive feature, you'll find technology that crosses our entire product line. Technology born and tested on racetracks and roadways around the globe that continuously keeps us on the cutting edge. From automobiles, race cars, motorcycles and all-terrain vehicles to marine engines, general-purpose engines and power equipment products, Honda is committed to designing products that meet or exceed the demands of our customers throughout the world.

Throughout our history, Honda has been dedicated to technological and environmental innovation, and today is no different. After all, we have a legendary reputation to live up to. A reputation for unsurpassed quality, performance, and reliability. A reputation worth considering the next time you're in the market for lawn and garden equipment.

Clockwise, from top: Honda CRF450R, Honda Accord Sport 2.0T, Honda Civic Type R, Honda Miimo, Honda Marine BF250 outboard engine, Honda Foreman Rubicon 4x4

LAWN MOWERS

A family of mowers for true lawn lovers.

Only Honda lawn mowers provide our legendary combination of durability, reliability, and innovation, powered by famously quiet, efficient, and easy starting Honda four-stroke engines. And they're all built by Honda from the ground up. Matching the ideal engine with select features, Honda lawn mowers deliver ease of mowing with superior cutting results.

Honda GCV160 ENGINE

Easy-starting, reliable, and powerful, Honda's premium residential GCV160 engine is certified to meet 50-state EPA and CARB emission levels.

3 YEAR LIMITED WARRANTY ON ALL HRS SERIES MOWERS*

*For warranty details, see your local Honda Power Equipment Dealer or visit powerequipment.honda.com.

HRS FEATURES

Honda ADJUSTABLE, VARIABLE SPEED SMART DRIVE CONTROL

Easily control the speed when resting hands on the handlebars. (HRSVKA only)

8" POLY WHEELS

High traction wheels with rear ball bearings offer better maneuverability, smoother drive, and increased durability.

HEAVY-DUTY STEEL MOWING DECK

Rugged & reliable steel mowing deck with 21" mowing width.

EASY FOLD QUICK RELEASE HANDLE

Easily adjust the handle to two comfortable mowing positions, or fold over for storage.

SIDE DISCHARGE

Side discharge assembly is easy to install and durable.

The Honda HRN Series.

Honda HRN Series lawn mowers have been designed from the ground up to offer lawn enthusiasts more power, performance, and efficiency for a superior mowing experience that helps create a better looking lawn.

At the heart of the HRN Series is a Honda GCV170 engine that offers 9% more power and 18% more torque* for a smooth, clean

cut and enough brawn to cut thick, heavy grass down to size.

All HRN models boast a deck design that optimizes air flow for improved bagging and mulching, and a dual lever height adjustment for quick and convenient height adjustment using two levers.

Self-propelled HRN models offer Smart Drive, for intuitive, variable speed control while mowing with five-position adjustable comfort settings.

*More power and torque than the Honda GCV160 engine.

MICROCUT® TWIN BLADE SYSTEM

THE UNIQUE, TIME SAVING TWIN BLADE SYSTEM

The MicroCut® System on HRN models provides four cutting surfaces for ultra fine clippings resulting in better mulching and increased bag capacity, which saves you time. Grass is cut into tiny pieces that quickly decompose and add money-saving nutrients to your lawn.

HRN FEATURES

Honda GCV170 ENGINE

Reliable, easy-starting power to tackle the toughest mowing conditions.

3-IN-1 SYSTEM WITH CLIP DIRECTOR®

Simply slide the Clip Director® for mulching, bagging, or discharging versatility. No attachments required.

MICROCUT® TWIN BLADES

Stacked & offset twin blade design provides superior cut quality and smaller clippings for better mulching and bagging.

SMART DRIVE CONTROL

Easily control the mower's speed to match your walking stride when resting hands on the handlebars.

21" HEAVY DUTY STEEL DECK

Innovative deck design optimizes airflow for superior mulching and bagging.

ROTO-STOP®

Conveniently stops the blades without stopping the engine. Perfect for emptying the bag, removing yard debris, or moving between mowing areas. (HRNVYA only)

DUAL LEVER HEIGHT ADJUSTMENT SYSTEM

Front and rear levers conveniently adjust to seven cutting heights (1"-4").

ELECTRIC START

Easy and effortless, self-charging key start. (HRNVLA only)

3 YEAR LIMITED WARRANTY ON ALL HRN SERIES MOWERS*

*For warranty details, see your local Honda Power Equipment Dealer or visit powerequipment.honda.com.

HRX217VKA Self-propelled

- Honda Select Drive® System
- Auto Choke System
- Mulch, bag, discharge or leaf shred with Versamow System
- NeXite® mowing deck

The ultimate mowing machines.

With unmatched innovation and technology, the Honda HRX Series leads the way in lawn mower engineering.

The HRX Series features an easy-starting and powerful Honda GCV200 engine.

Honda HRX Series offers exclusive and advanced design features like the Versamow System, which allows you to mulch, partially mulch, bag, rear discharge, or shred leaves with no tools or attachments.

Engineered and built by Honda, there's nothing else out there like the HRX.

HRX216VLA Self-propelled

- Honda Select Drive® System
- Auto Choke System
- Self charging Electric Start
- Mulch, bag, discharge or leaf shred with Versamow System
- NeXite® mowing deck

HRX217VYA Self-propelled

- NeXite® mowing deck

HRX217HZA Self-propelled

- Hydrostatic Cruise Control
- Auto Choke with Adjustable Throttle Control
- Roto-Stop® Blade Stop System
- Self charging Electric Start
- Mulch, bag, discharge or leaf shred with Versamow System
- NeXite® mowing deck

HRX217HYA Self-propelled

- Hydrostatic Cruise Control
- Auto Choke with Adjustable Throttle Control
- Roto-Stop® Blade Stop System
- Mulch, bag, discharge or leaf shred with Versamow System
- NeXite® mowing deck

MICROCUT® TWIN BLADE SYSTEM

THE UNIQUE, TIME SAVING TWIN BLADE SYSTEM

The MicroCut® System on HRX models provides four cutting surfaces for ultra fine clippings resulting in better mulching and increased bag capacity, which saves you time. Grass is cut into tiny pieces that quickly decompose and add money-saving nutrients to your lawn.

HRX FEATURES

The Honda GCV200 engine.

Honda HRX Series lawn mowers offer an easy-starting and powerful Honda GCV200 engine, with 11% more power and 12% more torque.*

To improve ease of use and servicing, the GCV200 design includes an optimized oil filler position and a 60% larger fuel filler to prevent spills.

Automotive-Style Dipstick With Optimized Positioning

60% Larger Fuel Filler With Tethered Gas Cap

*More power and torque than the Honda GCV190 engine.

HRX FEATURES

ROTO-STOP® BLADE STOP SYSTEM

If you need to stop the blades without shutting off the mower, Roto-Stop® does it in a flash. That way, you can empty the bag without having to restart the engine. (Available on HRX HYA & HZA [above left] and HRX VYA [above right] only)

4-IN-1 VERSAMOW SYSTEM WITH CLIP DIRECTOR®

Mulch, bag, rear discharge or leaf shred with no attachments to lose and no tools required.

NeXite® DECK

The HRX deck is constructed of advanced and extremely durable NeXite® material that does not dent, rust or corrode over time. Developed for Honda, NeXite® is exclusive on Honda HRX lawn mowers.

CRUISE CONTROL

The HRX HYA and HZA models offer Honda's exclusive hydrostatic transmission that allows precise and adjustable speed control so you can walk at your own pace and still get an excellent cut.

EXCLUSIVE MICROCUT® SYSTEM

Designed specifically to work with the HRX deck, the Honda MicroCut® twin blade system uses four cutting surfaces that result in more efficient bagging and mulching. When bagging, MicroCut® means you can mow farther before emptying the bag.

INFINITELY VARIABLE SPEED Honda SELECT DRIVE® SYSTEM

Intuitive, comfortable, convenient speed control from 0 to 4 mph right in the palm of your hands. (HRX VKA, VLA & VYA only)

SELF CHARGING ELECTRIC START

Effortless and convenient automotive style key start. Under normal mowing usage, it is not necessary to charge or maintain the battery.* A charge coil charges the on-board battery while the lawn mower is in use. (HRX VLA & HZA only)

Optional battery charger available.

AUTO CHOKE SYSTEM

Eliminates need to choke engine prior to starting.

5 YEAR LIMITED WARRANTY ON ALL HRX SERIES MOWERS*

*For warranty details, see your local Honda Power Equipment Dealer or visit powerequipment.honda.com.

Tough customers, tougher mowers.

Engineered for heavy use, Honda HRC Series commercial mowers are the choice of landscape professionals who require a durable machine and superior cut. All feature a commercial-grade Honda engine, heavy-duty steel deck with reinforced guards, and sturdy steel handles. MicroCut® Twin Blades ensure finer clippings, for better mulching and bagging.

MICROCUT® TWIN BLADE SYSTEM

HEAVY DUTY HANDLES

The HRC mowers all feature heavy duty steel pipe handles for durability but are also ergonomically designed for your comfort.

BALL BEARINGS

The Honda Commercial Series mowers feature sealed ball bearings for a smoother and more precise roll.

COMMERCIAL GRADE DRIVE

Heavy duty, hydrostatic transmission with automotive style shaft drive means no belt to slip or wear out. (HXA & HDA models)

HRC FEATURES

Honda OHV ENGINE

Honda's easy-starting commercial-grade overhead valve engines, with cast iron cylinders, provide excellent fuel efficiency and the ultimate in reliability. Plus, they have enough power for the most demanding mowing conditions.

LARGE, EASY ON/OFF GRASS BAG

The large capacity grass bag means increased productivity because you'll spend more time mowing rather than emptying the bag.

STEEL MOWING DECK

The 21" heavy duty steel mowing deck is tough, rugged, built to last, and reinforced with standard side deck guards.

Honda Miimo

Technology that works so you can play.

Miimo mows and charges independently, resulting in a beautifully manicured lawn with minimal owner interaction required. Miimo uses a microcomputer, timer, and sensors to provide automated, precise, unattended grass cutting. Giving you more time to do the things you really want. Find your authorized dealer or learn more about Miimo at miimo.honda.com.

Miimo AT A GLANCE

Miimo is on the cutting edge of technology with its unrelenting focus on your convenience. And it's perfect for almost any yard! Choose between the two models that best suits your yard size and complexity, and then let Miimo do the rest.

FEATURES AND OPTIONS

Two Miimo Models

Depending on your lawn size and complexity, choose between Miimo HRM310, covering up to .37 acres and Miimo HRM520, covering up to .75 acres.

Three Cutting Patterns

Miimo offers three main programmable cutting patterns: random for large, open areas, directional, for narrower obstacle-free areas, or mixed for large, complex yards. The result: an even and consistent cut with less stress on the lawn.

Special Blades

Designed for durability, Miimo's blades spin clockwise or counterclockwise, decreasing wear and increasing life span, and will swing back into the blade disc if a hard object is struck.

360° Sensors

Miimo is equipped with advanced 360° awareness sensors. These detect any lifting or tilting, stopping the blades automatically. Area sensors keep Miimo within your lawn's boundary wires and bump sensors detect obstacles upon contact.

Recharging System

With its intelligent design, Miimo automatically returns to its docking station when the battery is running low. Miimo's long life lithium-ion battery not only offers a quiet power source, but it is also very cost efficient to run.

Day & Night Modes

Because of its quiet timer that reduces blade and wheel speed, Miimo can be programmed to work unnoticed through the night, meaning you wake up to a perfect lawn every day.

Spiral Cutting

Miimo can detect when certain areas need more attention than others and cuts in a concentrated spiral pattern when it encounters longer grass before changing back to its normal cutting pattern.

Healthier Grass

Miimo's frequent, small cuttings create grass clippings so tiny they fall into the soil and fertilize the lawn, with no clean up necessary.

Anti-Theft Security

Miimo is protected by a unique security PIN, which prevents unauthorized access and usage. If lifted, an alarm will sound and mowing stops. Miimo will only resume mowing once the correct PIN is entered.

Miimo Warranty

Miimo autonomous mower is covered by a 24 month warranty for private residential use or for commercial/rental/institutional use from date of original retail purchase on or after June 1, 2017. Products must be purchased from a dealer authorized by American Honda to sell those products. See honda.com or your authorized Honda Miimo dealer for complete warranty details.

Miimo Accessory

An optional weather repellent Miimo House is available from your authorized Honda Miimo dealer.

Honda

TRIMMERS

Honda has just the right trimmer for the job.

Whether you're a weekend warrior or a full-time professional landscaper, Honda has the right trimmer for you. Honda trimmers range from an agile, lightweight model to a heavy-duty brush cutter that can take on tough undergrowth and small trees, to the innovative Honda VersAttach™ System that offers your choice of two powerheads and seven easily attachable tools.

The Honda Mini 4-Stroke Advantage

Thanks to Honda's Mini 4-stroke technology, all Honda handheld trimmers are highly fuel efficient and offer excellent torque and power for demanding jobs. Plus, they run on regular gasoline so there's never a need to mix gas and oil. Like all Honda 4-strokes, they're exceptionally quiet and clean running. The end result? Less smoke and less odor than 2-stroke handheld equipment.

All Honda handheld trimmers offer exclusive 360° inclinable 4-stroke engines, which means they can be used, rotated, and stored in any position.

HHT25SLTA

Honda's Lightest 4-Stroke Trimmer

- For homeowner and commercial trimming needs, the Honda HHT25SLTA provides ample power and torque.
- Requires minimal effort to start, thanks to the Honda Quick Start System.
- This model can easily accommodate a variety of cutting blades with an optional barrier kit.

The HHT25SLTA comes equipped with solid trigger design for excellent durability.

All Honda Trimmers come standard with either a single or double harness for added control. (Double harness standard with HHT35SUKAT.)

HHT35SLTA**Heavy-Duty 4-Stroke Trimmer**

- The Honda HHT35SLTA is ideal for the commercial user or homeowner whose requirements include heavy-duty trimming and brush removal.
- The excellent balance and feel of these trimmers make them easy to hold and maneuver, which in turn, makes even the toughest job seem like a breeze.
- Only Honda offers "Quiet Line" trimmer heads as a standard feature on SLTA models.

Deflector design offers the operator excellent visibility.

Honda Trimmers can accommodate a variety of 9" or 10" cutting blades with optional blade barrier kit installed (SLTA models). Blade Barrier Kit (bottom image) required for loop handle models.

HHT35SUKAT**Commercial 4-Stroke Trimmer/Brush Cutter**

- The Honda HHT35SUKAT features a commercial "bike" handle design for the serious professional whose needs range from regular trimming to clearing heavy brush, saplings, and small trees.
- This adaptable trimmer is perfect for any job. It can operate with a string trimmer head or a series of different blades,* depending on the task at hand.

Commercial "bike" handle provides increased leverage and precise control.

The standard Kwik Loader® trimmer head offers these time-saving features:

- **Easy and fast reloading**
- **No more tangled spools**
- **No more winding in the wrong direction**
- **Push-n-go in just seconds**
- **Handles up to 0.130" diameter line**

*Optional debris shield is required when using a 3 or 4 tooth grass blade. Kwik Loader® is a registered trademark of Kwik Products, Inc.

The Honda VersAttach™ System

The Honda VersAttach™ is a split boom multi-flexibility tool that fits all lawn and garden needs. It's a complete system that provides convenience and versatility, and helps you save money!

At the heart of VersAttach® powerheads are GX25 and GX35 Honda Mini 4-Stroke Engines. These compact and lightweight Honda Engines offer legendary Honda reliability, easy starting, low engine noise, minimal vibration and excellent fuel efficiency. They're also 360° inclinable, which means they can be used, rotated, and stored in any position!

UMC425 & UMC435

VersAttach® Powerheads

UMC425

- Honda GX25 Mini 4-Stroke Engine

UMC435

- Honda GX35 Mini 4-Stroke Engine

ADVANTAGE Honda!*

Lowest sound level (at idle and full throttle)

Lowest number of pulls to "cold start"

Longest full tank run time

* When compared to a leading competitor.

SureLoc® System – Twist, Lock, and Go!

The innovative SureLoc® joint locking system makes it easy to connect attachments giving confidence and security. SureLoc® takes the guesswork out of knowing if the attachment is properly secured to the powerhead.

Push and click to lock your attachment – no tools required!

VersAttach® Multi-Tool Flexibility

The Honda VersAttach™ features 7-in-1 versatility with a wide range of interchangeable attachments, from line trimmers, edgers and pruners to hedge trimmers, cultivators and blowers. For easy switching between attachments, we've designed the VersAttach® around our unique SureLoc® joint locking system. Just twist, lock, and go!

Honda

TILLERS

Cultivate some love for a Honda tiller.

Engineered to produce fine, loamy soil on the first pass, Honda tillers are easy to use and easy to love. All are powered by Honda GX commercial-grade engines, famous for reliability and quick, easy starting. Every engine is matched with a durable, commercial-grade transmission, ensuring quiet, powerful, and efficient operation.

FEATURES AND OPTIONS

World Famous Honda Engines

All Honda tillers have Honda GX commercial-grade engines. All Honda GX engines feature:

- *Easy starting*
- *Smooth performance*
- *Quiet operation*
- *Reliable power*

And Honda's legendary four-stroke engine design also operates more fuel-efficiently than comparable side-valve engines. Honda has the type of power and performance that'll keep a smile on your face.

FOLDING HANDLES

All our tillers are designed to be as user-friendly when they're not in use as when they are. Both the mini- and mid-tine offer folding handles that allow convenient and compact storage.

TRANSMISSIONS

Honda Tillers feature precision engineered commercial grade transmissions utilizing a robust chain or gears.

CONTROLS

All Honda Tillers feature conveniently located controls for comfort, ease of use and safety. Honda Tillers all feature a tine clutch control that is designed to stop the tines when released.

TRANSPORT WHEEL

Standard equipment on all mid-tine tillers and the FG110 mini-tiller, the transport wheel makes moving the tillers as easy as using them.

Breaking new ground.

If you're looking for durability in an easy-to-use tiller, the FG110 Mini-Tiller is the perfect choice. It's been designed and engineered from the ground up to be a lightweight tiller able to stand up to the rigors of commercial and rental applications. Thanks to a significantly lighter engine, heavy-duty, commercial-grade components have been added without compromising portability.

FG110K1AT Mini-Tiller

■ **Legendary Honda Engine**

The powerful Honda mini 4-stroke GX engine always starts easily, offers excellent torque, fuel efficiency and quiet operation - all making it a pleasure to use. Plus, it runs on regular gasoline, with no need to mix in oil like two-stroke engines.

■ **Patented Honda Hybrid Tines**

Honda's Hybrid Tines both cultivate and till with outstanding results. With the fastest tine speed of any mini-tiller (294 RPM at no load) hard ground is broken easily and loam-grade soil is produced quickly. Our exclusive tines are also backed against breakage by a Limited Lifetime Warranty.

■ **Commercial-Grade Toughness**

No other mini-tiller matches our commercial-grade gearbox, tough engine guard and easy-carry handle. The Honda Mini-Tiller comes with a 2-Year Residential Warranty.

EASY TO TRANSPORT

The FG110 features a folding handlebar and carrying handle to make it super-easy to lift, load and transport in your vehicle.

EASY ACCESS CONTROLS

The ergonomically-designed controls are user-friendly for easy operation and reduced fatigue. We also have your safety in mind with positive on/off engine control and a tine engagement lever.

TILLS IN TIGHT PLACES

The convenient, adjustable 9" tilling width lets you use the Honda Mini-Tiller in places bigger tillers can only dream about.

OPTIONAL ACCESSORIES

DE-THATCHER
Gently but effectively removes thatch from your lawn, which tends to interfere with growth.

DIGGING TINES
For those tough jobs like breaking up clumped soil or weeded patches, these powerful tines make it easy and efficient.

AERATOR
Great for helping get oxygen and nutrients to the roots of your lawn, keeping it thick and healthy.

BORDER/EDGER
Create a polished, professional look at the edges of your flower beds or even along walkways.

F220

Mid-Tine Tiller

- Features an extremely fuel-efficient yet powerful engine, adjustable tines, adjustable depth bar and a convenient 3-position handle. 2-Year Residential Warranty standard.

MID-TINE TILLER FEATURES

Honda FOUR-STROKE ENGINES

Honda GX Series commercial engines are powerful, easy to start and fuel efficient with legendary Honda reliability and durability built right in.

ADJUSTABLE DEPTH BAR

This convenient feature lets you change the tilling depth without having to use tools.

TRANSPORT WHEEL

Standard equipment on both of our mid-tine tillers, this swing-up, "one-touch" wheel makes it easy to transport the tiller to and from the garden. The wheel easily lifts up to a locked position when the tiller is in use.

3-POSITION ADJUSTABLE HANDLE

The operator-friendly handle adjusts to offer a comfortable operating height no matter how tall you are.

FC600A Mid-Tine Tiller

- Our top-of-the-line mid-tine tiller features a commercial-grade GX160 OHV engine, staggered tines, and tine speed that is variable by throttle control. 3-Year Residential and Commercial Warranty standard.

OPTIONAL ACCESSORIES

SIDE DISCS
Keeps the tiller aligned for neater furrowing, protects plants and prevents tines from catching fences and sidewalks when tilling close to them. (Standard on FC600A)

FURROWER ATTACHMENT
Saves you tons of time by creating deep, even planting rows that are ready for seeds.

AERATOR ATTACHMENT
Great for helping get oxygen and nutrients to the roots of your lawn. (FC600A only)

FRC800 Rear-Tine Tiller

- Features the powerful Honda overhead valve (OHV) four-stroke engine, three forward gears and one reverse, standard bumper guard and 12" tines for deep tilling.
- **Honda Four-Stroke Overhead Valve (OHV) Engine**
 Legendary Honda commercial-grade OHV engines are reliable, easy to start, and incredibly rugged. They're also easy to use and, due to Honda's four-stroke technology, they run smoothly and efficiently.

Full loop handle is ergonomically designed to allow tiller operation from either side to avoid walking in a tilled path.

Adjustable Depth Bar
 This convenient feature lets you change the tilling depth.

Rugged Front Guard
 Protects the engine and transmission.

OPTIONAL ACCESSORIES

Furrow

Hiller

Increases garden productivity by quickly creating raised beds for planting and ditches for planting and irrigation.

Looking for a Premier Level of customer service from your Honda Dealer? Now you have it.

With the new **Honda Premier Service** and **Honda Premier Dealership** designations, we're making it even easier to find the best local dealers for Honda Power Equipment sales, service, and support at www.powerequipment.honda.com/dealer-locator.

Visit our website anytime to search for the dealer nearest you – from our network of more than 3,000 authorized Honda dealers nationwide – and see the latest information on equipment and accessories.

Why choose a Honda Premier Service dealer?

Honda Premier Service dealers meet the highest customer satisfaction standards for Honda warranty, service and parts – **no matter where you purchased your Honda product.**

You can always count on a Honda Premier Service Dealer to:

- Be responsive and professional
- Have highly trained service technicians who have gone through Honda's exclusive Honda Power Training curriculum
- Have the necessary tools to get the job done right
- Complete warranty repairs within 10 calendar days of the repair order

Why choose a Honda Premier Dealership?

In addition to meeting the superior warranty, service and parts standards of a Honda Premier Service dealer, these dealerships perform at the highest level and have attained the highest standards by providing the best overall customer experience set by Honda. Honda Premier Dealerships provide the best overall customer experience through:

- Additional Premier Performance training for their staff
- Superior product knowledge to help with all your purchases
- Participation in all sales programs as well as other business standards

For the highest quality in sales and service support, look for the Honda Premier Service and Honda Premier Dealerships in your area or find them online at

www.powerequipment.honda.com/dealer-locator.
